

Indoor Wireless Camera (ADC-521IR)

Provide Enhanced Indoor Video Monitoring

The Alarm.com Indoor Wireless IP Camera (ADC-521IR) is a compact, stylish new indoor camera that offers many improved features at the same low cost as the ADC-520IR.

Equipped with a 1MP sensor, the ADC-521IR is enabled for a viewing resolution of 720p at 30fps. Additionally, the camera can view a wide angle at 110 degrees which provides superior video security.

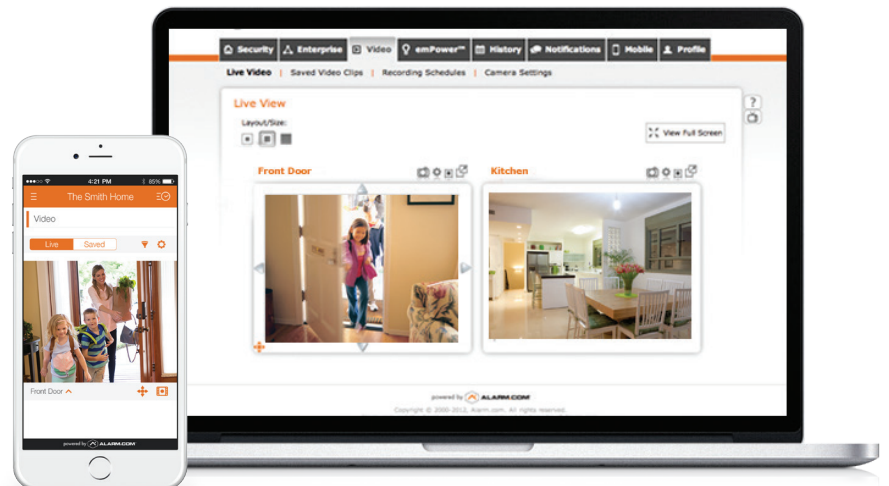

The ADC-521IR camera is available to order through the Alarm.com Dealer Website and through distribution.

The ADC-521IR Features

- 110° Horizontal Field of View
- Viewing Resolution of 720p at 30fps
- Improved Image quality and Night Vision
- Increased Wi-Fi Range by 30%
- Refined Video Motion Detection

Included Accessories

- Camera Stand
- Wall Screws
- Wall Mount
- Ethernet Dongle
- Power Adapter
